

ARGOS - Inventory & Recent Works

Public buyer file - inventory reading and important recent works.

English buyer version. This public document is an English summary/adaptation for international buyers. The French source documents and signed sale documents remain authoritative.

Inventory Reading

ARGOS is presented with a substantial onboard inventory: living equipment, technical systems, autonomy equipment, deck equipment, practical furnishings and navigation-related items. The final inventory must be checked and dated on board at sale stage.

Main Equipment Families

- Living spaces: galley, saloon, office/dressing cabin, shower room and outdoor areas.
- Energy and autonomy: solar panels, lithium batteries, electrical distribution and charging equipment.
- Comfort: heating equipment, bedding, furniture and everyday liveaboard equipment.
- Technical and navigation: engine, steering, underwater fittings, instruments and safety-related equipment to be checked before final handover.

Recent Works To Highlight

- Last careening / haul-out works documented in the invoice file.
- Anodes changed as part of the recent underwater maintenance record.
- Important rudder and steering works completed in May 2024.
- New propeller fitted and documented in the recent works/invoice file.
- Recent maintenance and investments are reflected in the public buyer file and in the price positioning.

Sale-Stage Confirmation

The final handover inventory should be checked physically on board, dated and signed as an annex to the sale/handover file. Personal administrative documents remain outside the public website.

Local sources: inventory document, recent works, invoice file and maintenance history.
