

ARGOS - Technical, Spaces & Navigation

Public buyer file - short technical overview, living spaces and navigation profile.

English buyer version. This document is an English public summary/adaptation for international buyers. The French source documents and signed sale documents remain authoritative.

Short Technical Sheet

Model	Vulcain Bleu	Year	1989
Length	15.10 m	Beam	3.51 m
Draft	0.95 m	Air draft	approx. 3.50 m
Hull	Steel	Engine	Cummins B3.9, approx. 80 hp
Fuel use	approx. 2.5 L/h	Presentation price	124,000 EUR

Spaces On Board

- Open galley and saloon, designed as the main living area.
- Wheelhouse with interior helm station and good visibility.
- Multipurpose office / dressing cabin, useful as storage, work space or extra flexible room.
- Shower room and practical circulation throughout the boat.
- Aft terrace connected to the galley and outdoor life.
- **Upper deck / upper terrace: approx. 20 m²**, panoramic 360-degree view, outdoor lounge and brazier area.

Navigation Profile

ARGOS is presented as an atypical, liveaboard inland cruiser with strong volume, autonomy and European navigation history. Its dimensions and 0.95 m draft make it suitable for many inland waterways, subject to local restrictions, bridge clearances and the skipper's checks.

Autonomy And Comfort

- Solar panels and lithium battery bank supporting autonomous use.
- 230 V / 12 V / USB distribution according to areas on board.
- Heating solutions currently based on petroleum stoves; the Kabola installation remains on board but is not used as the everyday heating system.
- Large inventory of equipment, furnishings and practical onboard systems documented separately.
